

ESSENTIALS OF CONTRACT MANAGEMENT

INTERMEDIATE

For experienced practitioners who have a sound understanding but would like to further improve their skills.

4 CPD Hours

From this programme, you will gain a basic understanding of contract management and guiding principles for maximising the value for the money your organisation spends with contracts. You will also learn about the areas of risk involved in managing contracts.

Topics include:

- Introduction to Contract Management
- Legal context
- Contract early stages
- Quality management
- Performance management
- Contract administration
- Risk management
- Looking ahead
- Disputes

Access to video content and resources used in this programme will be made available to attendees.

Presenters:

Peter Brooks

Principal Contract Management Specialist, Procurement, Auckland Council

Pete works in the Contract Management Centre of Excellence (CMCoE) which is part of Procurement Department at Auckland Council. The CMCoE a centralised location of shared resources providing advice, guidance and support structure for the management of contracts of goods and services across Council's contract management lifecycle.

Eliza Bennett

Contract Management Practice Lead, Auckland Council

Eliza leads the Contract Management Centre of Excellence which champions best practice contract management throughout Council including delivering tools, training and best practice. Eliza has over nine years experience in this area, is a Certified PMP (Project Management Professional) and also has a MSc - Environmental Engineering and BSc - Aerospace Engineering.
