Gain a sound understanding of the basics of governance, including involvement on a trust, board of a company or incorporated society.

Governance Essentials focuses on the core tasks of the director and a board.

This session will start by looking at what an individual director must do to ensure they not only meet their legal obligations but provide the appropriate leadership for the organisation.

Building on the legal obligations, consideration is then given to the role of the directors as a collective, for example a board and how they must lead the directors from a strategic point of view whilst ensuring compliance with regulations.

The course content draws on real case studies and the experience of the presenter. Delegates can expect to receive clear explanations of complex legal issues and pragmatic examples of how to manage governance processes and deal with the issues that arise.

One such issue is the vexed question of the separation of governance from managerial roles. This is dealt with using a pragmatic methodology that will enable participants to review their own organisation and understand how to ensure the parties work together effectively.

Throughout the workshop questions, debate and discussion are encouraged which makes it an interactive learning experience with useful work papers as a takeaway.

This session will continuously look at governance of not for profit organisations for parallels and differences to provide a complete picture of governance in New Zealand.
